Washington State Soil/Soup/Slurry (Slurry) Acceptance Letter

Slurry Approval Number: _____

Project Site Name/Address: _____

This certification is in reference to transferring soil/soup/slurry (slurry) from various sites,
managed/controlled by: _____

(Contractor/Property Owner)

who will be transferring soil/soup/slurry at Bay Area Concrete Recycling (BACR) site to be processed by the Slurry Separation and Reuse™ Process (SS&R™ Process). As the person or party responsible for designating the above referenced slurry as contaminant-free¹ with a pH range between 4.5 to 9.5 S.U., I certify, under penalty of perjury, that no contaminants have been introduced into this material by agricultural, commercial and/or industrial means. These standard contaminants include, but are not limited to:

- PCBs and Dioxins
- Heavy Metals
- Petroleum Products
- Semi and Volatile Organic Compounds
- Pesticides/Herbicides
- Asbestos, Asbestos-containing material and/or Serpentine Rock

I also certify that no deliberate or willful omissions of composition or properties of the slurry exists; all known or suspected contaminants have been disclosed to Bay Area Concrete Recycling; and the slurry is not a designated Hazardous Waste by the US EPA or State of Washington Department of Ecology.

Please contact _____, should you have any questions or concerns regarding the transferring of soil/soup/slurry (slurry) from the above referenced project site.

Under penalty of perjury,

(Signature)

(Print Name)

(Date)

Individually and as representative for _____

(Contractor/Property Owner)

¹ "Contaminant-free" identifies that it meets the definition of "Clean soil and clean dredged material" per updated WAC 173-350-100
